ŞİRKET PROFİLİ

ÖZ KARDEŞLER Profil Lastik San. Tic. Ltd. Şti. 1970 yılında sünger lastik üretimi ile faaliyete başlamıştır. 1990 yılında Otomotiv, Gemicilik, İnşaat sektörleri ve Makine Sanayisine her tür EPDM - NEOPREN - NBR - SBR Kauçuk bazlı profiller üretmeye başlayarak ürün yelpazesini genişletmiştir.

2002 yılında firmamız kauçuk CO-EKSTRÜZYON üretimine geçmiş kaliteli üretim anlayışıyla müşteri memnuniyetine önem vermiş ve çalışmalarına hız kazandırmıştır.

2007 yılında kapasitesini arttıran şirketimiz 2000m² kapalı alanda üretime başlamıştır. Deneyimli uzman kadrosu ve ISO 9001 güvencesiyle tesisimizde PVC ekstrüzyon, kapı ve bagaj lastikleri, pano ve sac fitilleri, jeneratör kabin lastikleri, dilatasyon contaları, segment ve rogar kapak lastikleri, sızdırmazlık fitilleri, cam lastikleri, pen contaları ve çeşitli lastik profiller imal edilmektedir.

40 yılı aşkın tecrübesiyle sızdırmazlık sorununuza çözüm bulmaktadır.

INTRODUCTION OF THE FIRM

ÖZ KARDEŞLER Profil Lastik San. Tic. Ltd. Şti. ,had started its activities with the production of foam rubber in 1970. In 1990, the company expandet its range of products by starding to produce all kinds of EPDM - NEOPREN - NBR - SBR rubber based profiles for the Automotive, Marine, Construction sectors as well as for the Machinery Industry.

In 2002, our firm started to produce rubber CO-EXTRUSION, gave importance for the customer satisfaction with the understanding of quality production and speeded up its studies.

Our company which increased its capacity in 2007, started production in the covered area of 2000m² .Along with our experienced staff and with the ISO 9001 assurance we have been produccing PVC extrusion, baggage and door aperture weatherstrip, rubber profiles for dashboard and sheet metal, generator cabin rubber profiles, dilatation seals, segment and manhole rubber profiles, impermeability seals, types of glass rubber profiles in our plant.

Our company finds solutions to your problems with its skill for a period of more than 40 years.
